

BFF Carstopper

BFF “Carstopper” Anti vehicle single use rocket launcher. The Carstopper is a low cost solution to anti-vehicle needs. It’s small shaped doped Boomex charge punches through most heavy armor, and leaves enough energy to deal with passengers within under armored targets. These launchers are easy to aim, but due to their simple symmetrical rocket-in-a-tube design, have gained a reputation of causing a bit of chaos in the heat of battle.

Stats: +1 to attack, AVPL, 3d6 damage, single use, unlucky, Heavy weapon, projectile, 2 grips
Cost: S2
